1. Educational Philosophy and Aim

The twenty-first century is considered the era of food and the environment. Harmonization of environmental protection and development, as well as natural conservation and production of products, needs to be pursued. The most important tasks of this century for society, companies and governmental organizations are to conserve the global environment and to secure a sustainable food supply. In response to these social demands, the Graduate School of Fisheries and Environmental Sciences set out its basic principle: “To cultivate both advanced specialists with practical leadership skills and internationally competent researchers, who can address and provide solutions to environmental and food-security issues, and to contribute to the creation and development of new interdisciplinary science for achieving the existence of humanity in harmony with the environment, by promoting education and research in interdisciplinary and comprehensive academic fields of fisheries and environmental sciences.” Fisheries and environmental sciences both aspire for harmony and symbiosis of humans and nature and share much in their academic missions and methodologies. These are disciplines that need interdisciplinary integration to be effective.

The doctoral program, Department of Environment and Fisheries Resources, trains students to become practice-oriented researchers who can contribute to solving regional problems using their excellent abilities and work in international society in an interdisciplinary field that combines environmental science and fisheries. The Department offers the following two programs.

The Fisheries Science Program helps students acquire new knowledge and skills for safe, advanced uses of marine food resources and proper management of such resources.

The Environmental Science Program help students acquire broad and specialized knowledge to contribute to solving environmental problems and building a sustainable society that coexists in harmony with the environment.

2. Admissions Policy

The Department of Environment and Fisheries Resources expects prospective students to have the following competencies and attributes:

- Aspiration to become a leader/researcher who will actively be involved in solving problems of local, regional, and international scope within the interdisciplinary and comprehensive academic fields of fisheries and environmental sciences. Prospective students will be evaluated through an oral examination.
- For prospective students in the Fisheries Science Program: Aspiration to acquire new knowledge and skills for the safe and advanced application of marine food resources and proper management of these resources. For prospective students in the Environmental Sciences Program: Aspiration to acquire both broad and specialized knowledge to contribute to solving environmental problems and building a sustainable society that can coexists in harmony with the environment. Prospective students will be evaluated through an oral examination.

• Knowledge, academic ability, and language skills that are equivalent to a masters level coursework of each respective course and a working knowledge of English. Prospective students will be evaluated through a written (for specialized subject and English) or oral examination.

Selection Method : Evaluation methods for the required aptitude and its priority (most prioritized : ◎, prioritized : ○)

April 2023 Enrollment
(October and February Applications)

General Entrance Examination
Entrance Examination for Working People
Entrance Examination for International Students

1. Department and Enrollment Quota

Department	Period	Student Intake
Department of Environment and Fisheries Resources	October	6 students for April Enrollment
	February	4 students for April Enrollment

Note: Student intake includes those students from a master's program.

Note: If successful applicants for October application or February application do not meet the student intake quota, the student intake deficit will be added to the quota for February application and July application (October enrollment).

2. Application Requirements (Applicants must meet any of the following criteria.)

- (1) Applicants who have a master's degree or professional degree, or are expected to acquire such a degree by March 2023;
- (2) Applicants who have received a degree equivalent to a master's degree or professional degree overseas, or are expected to receive such a degree by March 2023;
- (3) Applicants who have completed class subjects in Japan through correspondence education by an overseas school and received a degree equivalent to a master's degree or professional degree, or are expected to receive such a degree by March 2023;
- (4) Applicants who have completed a curriculum and were conferred a degree equivalent to a master's degree or professional degree at an educational institution in Japan with a curriculum of an overseas graduate school, which is regarded as an institution in line with the pertinent country's education system and is separately specified by the Minister of Education, Culture, Sports, Science and Technology, or are expected to receive such a degree by March 2023;
- (5) Applicants who have completed a curriculum at the United Nations University and were conferred a degree equivalent to a master's degree, or are expected to receive such a degree by March 2023;
- (6) Applicants who have completed a curriculum and have passed an examination or an assessment equivalent to that described in Paragraph 2 of Article 16 of the Standards for the Establishment of Graduate Schools at an overseas school, an educational institution designated in category 4 above, or the United Nations University, or are expected to pass such an examination or an assessment by March 2023; and have been recognized as having academic abilities on par with or higher than those of a person with a master's degree (submission of documents for application qualification screening is required);
- (7) Applicants who are designated by the Minister of Education, Culture, Sports, Science and Technology (Ministerial Announcement No. 118, Ministry of Education, Science, Sports and Culture, 1989);
 - ① Applicants who have engaged in research at a college/university, research institute, etc., for two or more years after graduating from college/university, and as a result of such research, are recognized as having scholastic abilities equivalent to or higher than those who have a master's degree in relation to the admission to a graduate school (submission of documents for application qualification screening is required);
 - ② Applicants who have engaged in research at a college/university, research institute, etc., for two or more years after completing 16 years of school education overseas or after completing 16 years of school education of an overseas school by completing class subjects in Japan through correspondence

education by such overseas school, and as a result of such research, are recognized as having scholastic abilities equivalent to or higher than those who have a master's degree in relation to the admission to a graduate school (submission of documents for application qualification screening is required.)

- (8) Applicants who are recognized by the Graduate School on the basis of individual application qualification screening as having scholastic abilities equivalent to or higher than those who have a master's degree or a professional degree and are 24 years old or older or will be 24 years old by March 31, 2023 (submission of documents for application qualification screening is required);

For Entrance Examination for Working People, applicants who are working for a company or other institution as a full-time employee at the time of admission, have obtained permission from the head of their institution, and meet any of the above criteria;

For Entrance Examination for International Students, applicants who do not obtain Japanese citizenship (excluding those who have a permanent residence permit in Japan) and meet any of the above criteria; however, applicants who graduated from a Japanese university and completed a master's course at a Japanese university cannot apply for this examination.

3. Application Qualification Screening (preliminary application screening, if applicable)

Applicants who fall under the application criteria (6), (7) or (8) listed above must undergo the application qualification screening by the Graduate School in advance, and submit application documents after receiving confirmation that they are qualified to apply for admission to this course.

As a general rule, the assessment will be made on the basis of the documents submitted.

- (1) Deadlines and place of submission of documents for application qualification screening and screening result notification

- ① Deadlines of submission of documents for application qualification screening
 - **October Application: due no later than 5:00 p.m., Friday, September 2, 2022**
 - **February Application: due no later than 5:00 p.m., Friday, December 2, 2022**

- ② Submit to:

The office for Graduate School of Fisheries and Environmental Sciences, Nagasaki University
1-14, Bunkyo-machi, Nagasaki 852-8521, Japan

- ③ Screening result notification

You will be notified of the screening results prior to application.

(2) Required Documents

Required Documents	Remarks
Application for Preliminary Screening [Form 5]	Fill out the form designated by the Graduate School.

Graduation Certificate	An official graduation certificate issued by the president of the university/college (undergraduate or graduate schools) you attended is required. For junior college or vocational school, an official graduation certificate issued by the president of the final school you attended is required.
Academic Transcript	An official transcript issued and sealed by the president of the university/college (undergraduate or graduate schools) you attended is required. For junior college or vocational school, an official transcript issued by the president of the final school you attended is required.
Certificate of Research Activities [Form 6]	Include a list of your theses, research publications, study reports, conference presentations, etc. (if any) on the form designated by the Graduate School.
Outline of Research-and-Development Content [Form 7]	Write a detailed description of the theses or research publications that are listed in the “Research Achievement Report,” on the form designated by the Graduate School, and attach a copy of such publications or other evidentiary or supporting materials.
Return Envelope for Screening Result Notification (For residents in Japan only)	Write your name, address and postal code on the return envelope (<i>Nagagata</i> #3) and put a prescribed postal stamp (for express mail) on it.
Proof of Passing (or Expected Passing) of Qualifying Examination (Applicants who fall under criterion (6))	Official proof issued by the president of the university/college (undergraduate or graduate schools) you attended is required. For junior college or vocational school, official proof issued by the president of the final school you attended is required.
Certificate of Eligibility for Status of Residence (Non-Japanese applicants only)	Submit a copy of your residence card or passport.

Note: Form 7 may be prepared using a word processor.

4. Application Process

(1) Application Period

○ October Application

Thursday, September 15 to Thursday, October 6, 2022

Application forms must arrive by October 6, 2022

○ February Application

Friday, December 9, 2022 to Friday, January 6, 2023

Application forms must arrive by January 6, 2023

- (2) Submission Hours: Weekdays 9:00 a.m. to 5:00 p.m. (excluding Saturdays, Sundays, national holidays, year-end and New Year holidays)
- (3) Submit to: The office for Graduate School of Fisheries and Environmental Sciences, Nagasaki University
1-14, Bunkyo-machi, Nagasaki 852-8521, Japan
- (4) **When applying for admission, applicants must have undergone an interview, in advance, with a faculty member from whom they wish to receive guidance and write the name of their expected academic supervisor on their application forms.**
- (5) Application Documents

Applicants must prepare all the documents listed below and submit them within the application period using the envelope (*kakugata* #2).

Application Documents	Remarks
Application for Enrollment [Form 1] Entrance examination Photo Card, Entrance Admission Ticket, Proof of Payment of Entrance Examination Fee [Form 2]	Fill out all fields, except for those that are marked with an asterisk (*), on the Forms designated by the Graduate School. Your photographs must be 4cm high x 3cm wide, showing a front view of your entire face and upper body (without a hat), and have been taken within the last 3 months.
Graduation Certificate or Completion (or Expected Completion) Certificate	An official graduation certificate issued by the president of the university/college (undergraduate or graduate schools) you attended is required. For junior college or vocational school, an official graduation certificate issued by the president of the final school you attended is required. Applicants who have already submitted this document for application qualification screening do not need to submit it again.
Academic Transcript (Undergraduate or Graduate Schools, etc.)	An official transcript issued and sealed by the president of the university/college (undergraduate or graduate schools) you attended is required. For junior college or vocational school, an official transcript issued by the president of the final school you attended is required. Applicants who have already submitted this document for application qualification screening do not need to submit it again.
Certificate of Research Activities [Form 6]	Include a list of your theses, research publications, study reports, conference presentations, etc. (if any) on the form designated by the Graduate School. Applicants who have already submitted this document for application qualification screening do not need to submit it again.
Outline of Research-and-Development	Write a detailed description of the theses or research publications that are listed in the “Research Achievement Report,” on the form designated by

Content [Form 7]	<p>the Graduate School, and attach a copy of such publications or other evidentiary or supporting materials.</p> <p>Applicants who have already submitted this document for application qualification screening do not need to submit it again.</p>
Abstract of Master Thesis [Form 8]	<p>Write a summary of your master thesis within 2,000 characters on the form designated by the Graduate School.</p> <p>Applicants who do not have a master's degree do not need to submit this document.</p>
Research Plan [Form 9]	<p>Write a description of the research project you wish to conduct on the form designated by the Graduate School based upon prior discussion with your possible supervisor.</p>
A letter of Acceptance on Examination and Enrolment [Form 10] (Entrance Examination for Working People only)	<p>Applicants who currently work for a government office or private company are required to submit permission on the form designated by the Graduate School from the head of your institution for taking the entrance exam and studying at the university</p>
	<p>(1) Payment Period:</p> <p>October Application: Thursday, September 15 – Thursday, October 6, 2022</p> <p>February Application: Friday, December 9, 2022 – Friday, January 6, 2023</p> <p>* Please allow enough time for the payment to be processed as delays can happen due to the working days and hours of a bank.</p> <p>(2) Payment Place:</p> <p>A teller's window at a banking organization</p> <p>(Do not process your payment at an automatic teller machine (ATM). Make sure to process your payment at a teller's window.)</p> <p>(3) Payment Method:</p> <p>(a) Applicants will be responsible for all bank charges required separately when transferring the payment.</p> <p>(b) Write your name (in katakana), address and telephone number properly in black or blue ink in the column marked with an asterisk (*) on the "payment slip for bank transfer of the examination fee."</p> <p>(c) When receiving "proof of payment of the examination fee" from a teller's window, be sure to check that the bank's stamp is included on it.</p> <p>(4) Things to keep in mind when preparing application forms</p> <p>(a) Do not remit the examination fee over again even if you notice a mistake or typo after attaching the already issued "proof of payment of the examination fee" on the "form to attach proof of</p>

Examination Fee (30,000 yen)	<p>payment of the examination fee” and you are forced to prepare a new form. In such case, please peel off the “proof of payment” attached and attach it on a new form.</p> <p>(b) If your examination fee is not paid, your “proof of payment of the examination fee” is not attached in the appropriate space on the form to attach proof of payment of the examination fee, or the stamp of the payment handling bank is not stamped on the “proof of payment of the examination fee,” your application form will not be accepted.</p> <p>(5) An examination fee already paid will not be refunded for any reason except when:</p> <p>you have remitted the examination fee but did not apply for admission to Nagasaki University (i.e. you did not send application documents or your application was not accepted) or you remitted the examination fee over again by mistake. In such cases, an amount equal to the examination fee will be refunded upon your request. As a general rule, applicants will be responsible for any bank charges for refunding.</p> <p>A request for refund must be made within 14 days of the last day of the application period.</p> <p>* Contact information for inquiries about refunds Money Management Unit, Financial Management Section Finance Department, Nagasaki University Tel: (095) 819-2060</p> <p>(6) Applicants who are students sponsored by the Japanese government (the Ministry of Education, Culture, Sports, Science and Technology) do not need to pay the examination fee.</p>
Return envelope for Sending Exam Admission Card (For residents in Japan only)	Write your name, address and postal code clearly on the return envelope (<i>nagagata</i> #3) and put a prescribed postal stamp (for express mail) on it.
Address Seal	Write your name, address and postal code clearly on the mailing label. Please notify us immediately of a change to your name, address or postal code after submitting the application forms.
Certificate of Eligibility for Status of Residence (Non-Japanese applicants only)	Submit a copy of your residence card or passport. Applicants who have already submitted this document for application qualification screening do not need to submit it again.

Note: Forms 7, 8 and 9 may be prepared using a word processor.

Note: If you cannot obtain your “Graduation Certificate and Completion (or Expected Completion)

Certificate” and “Academic Transcript,” due to special circumstances, such as earthquake disaster, be sure to contact and consult with the office for Graduate School of Fisheries and Environmental Sciences, Nagasaki University, at telephone number 095-819-2800.※For international students, consult with the intended academic supervisor.

5. Selection of Applicants

(1) Date of Examination

○ October Application:

Monday, October 24, Tuesday, October 25 or Wednesday, October 26, 2022

<Day and time designated by examining staff>

○ February Application:

Monday, January 30, Tuesday, January 31 or Wednesday, February 1, 2023

<Day and time designated by examining staff>

(2) Venue of Examination

Nagasaki University Faculty of Fisheries and Faculty of Environmental Science

<Venue designated by examining staff>

(3) Selection Process

Academic achievement tests will be conducted as follows.

○ General Entrance Examination:

Written test (for specialized subject and English) or oral examination (interview) (including examination of application documents)

○ Entrance Examination for Working People and International Students:

Oral examination (interview) (including examination of application documents)

※ If an applicant hopes to take the examination, please consult with your potential supervisor in advance. The oral examination could be conducted using Online conference system.

(4) Allocation of Scores and Evaluation and Assessment Method of Academic Achievement Test (Allocation of Scores)

○ General Entrance Examination:

Written test: 200 points (100 points for specialized subject and 100 points for English)

Oral examination: 200 points

○ Entrance Examination for Working People and International Students:

Oral examination: 200 points

(Evaluation Method)

Evaluation will be made based on the results of the academic achievement test.

(5) Notes on Taking Examination

- Candidates must meet at the designated examination site by the time designated by the Graduate**

School.

- Make sure to bring with you the examination admission card issued by the Graduate School on the day of the entrance examination.
- If you are late for the start of the examination, you will be allowed to take the examination only if you arrive within 30 minutes of the start of the examination. However, the allotted examination time will not be extended.

6. Announcement of Successful Applicants

- **October Application: 10:00 a.m., Thursday, December 1, 2022**
- **February Application: 10:00 a.m., Friday, February 24, 2023**
 - * The application numbers of successful applicants will be posted on the bulletin board in front of the entrance of the Faculty of Environmental Science and Faculty of Fisheries and a letter of acceptance will be sent to successful applicants.
 - The University will not respond to any inquiries regarding the results of the examination by telephone or other forms of communication.

7. Enrollment Process

For successful applicants, complete the enrollment process as follows:

- (1) Enrollment Process Period (for October and February Applications)
 - **October Application: Monday, February 13 to Tuesday, February 21, 2023**
 - **February Application: Monday, February 27 to Monday, March 13, 2023**
- (2) Office Hours: Weekdays 9:00 a.m. to 5:00 p.m. (excluding Saturdays, Sundays and national holidays)
- (3) Enrollment Process Venue:

Contact: The office for Graduate School of Fisheries and Environmental Sciences, Nagasaki University
- (4) Payment of Fees

Enrollment Fee ¥282,000

<Be sure to remit the amount during the enrollment period.>

(Note) Enrollment fees shall not be refunded once paid.

[Additional Information]

- ① Tuition Fee for 2022 (Annually): ¥535,800
(The first semester ¥267,900 / The second semester ¥267,900)
 - ② Payment periods for the tuition fee will be as follows.

The first semester: April

The second semester: October
 - ③ If the tuition fee has been changed, the new tuition fee will apply from the date of revision.
 - ④ There is a provision for exemption or deferment of enrollment and tuition fees available for students.
 - ⑤ Admission and tuition fees are not required for international students recipients of the Japanese government (Monbukagakusho: MEXT) scholarship program.
- ※Details will be enclosed with the procedural documents sent to successful applicants.

8. Notes

- (1) Incomplete application documents will not be accepted.
- (2) After the application process, the submitted documents cannot be changed.
- (3) No submitted application documents will be returned.
- (4) Your admission may be canceled at any time, even after enrollment, if you make a false statement on your submitted application documents.
- (5) If any of the submitted application documents are prepared by an overseas school or institution and are written in a language other than Japanese, attach a Japanese translation.

9. Handling of Personal Information

- (1) Information obtained from application documents is used for selecting enrollees. In addition, personal information of successful applicants is used for giving guidance on enrollment procedures; thus, personal information of enrollees will be used for student registration.
- (2) Grades from entrance examinations and other personal information are used for selecting students to be recommended for the first year's scholarships and exemption and postponement of tuition fees.
- (3) Information obtained from application documents and entrance examinations are used in statistical surveys and research related to the selection of enrollees.
- (4) Information obtained from application documents and entrance examinations will not be used for purposes other than the above or provided to third parties except in cases stipulated in Article 9 of the Act on the Protection of Personal Information Held by Independent Administrative Agencies, etc.

10. Application Procedures for Those with Disabilities or Health-Related Needs

Applicants with disabilities or health-related needs will be able to receive special attention on request through a screening process given by the Graduate School (depending on the degree of disability). Those who need special attention in taking the examinations should submit the form 'Request for Applicants with Physical Disability' to the Office for Graduate School prior to application. Please submit the form with a medical certificate by Friday, September 2, 2022. Applicants shall not suffer a disadvantage in the screening process by the results of the advance consultation. A personal interview may be arranged with the applicant him/herself, his/her parent, or his/her surrogate.

○ The form should list the following information:

- ① Degree of disability
- ② Special measures to be taken for examinations
- ③ Special measures to be taken for course work
- ④ Special measures that were taken during the applicant's school of graduation
- ⑤ Special measures that are taken in daily life
- ⑥ Name, contact address, and phone number of the applicant

☆The Nagasaki University Student Accessibility Office will support students and applicants with disabilities.

11. Security Trade Control

Nagasaki University regulates the export of goods and provision of technology subject to safety concerns, in accordance with the Foreign Exchange and Foreign Trade Act, so that the research and education for non-Japanese students do not impede international peace and safety; accordingly, prospective students should keep in mind that they may be requested to change the contents of research and education. For further inquiries, consult the relevant office.

12. Others

(1) Extended Enrollment System

The Extended Enrollment System allows students for whom learning is difficult due to their employment situation or for other reasons to complete the program by covering the curriculum systematically over a certain period that exceeds the standard study period. The Graduate School allows them to extend the study period for up to six years.

If allowed at the time of enrollment, the total tuition fees, which are usually paid over the term of the regular course (three years), will be equally divided by the number of semesters during the extended study period. The divided tuition fee will be paid during the semester.

Those who meet any of the following criteria and who cannot complete the program within the term of the regular course may apply for the Extended Enrollment System.

[1] those who are working;

[2] those who are involved with housework, child rearing or caring for a sick family member; and

[3] disability person

[4] those who are deemed to have an equivalent reason

If you wish to use the Extended Enrollment System, please contact and ask the office for Graduate School of Fisheries and Environmental Sciences, Nagasaki University, at telephone number 095-819-2800, after discussing this with your possible supervisor in advance.

(2) Financial Aid Programs

There are several financial aid programs by the Japan Student Service Organization (JASSO), prefectural and municipal governments, and private entities. Most of them are scholarship loans and must be repaid after completion of the program.

Financial aid by JASSO includes “Type I Financial Aid” that is provided free of interest and “Type II Financial Aid” that is provided with interest. If you wish to apply for a financial aid program, please contact and consult directly with the Department of Student Support, Student Support Office, at telephone number 095-819-2104.

13. Contact Information for Inquiries about Examination

4. Application Process

(1) Application Period

○ July Application

Thursday, May 11 to Thursday, June 8, 2023

Application forms must arrive by June 8, 2023

(2) Submission Hours: Weekdays 9:00 a.m. to 5:00 p.m. (excluding Saturdays, Sundays,)

(3) Submit to:

The office for Graduate School of Fisheries and Environmental Sciences, Nagasaki University
1-14, Bunkyo-machi, Nagasaki 852-8521, Japan

(4) **When applying for admission, applicants must have undergone an interview, in advance, with a faculty member from whom they wish to receive guidance and write the name of their intended academic supervisor on their application forms.**

(5) Application Documents

Applicants must prepare all the documents listed below and submit them within the application period using the envelope (*kakugata* #2).

Application Documents	Remarks
Application for Enrollment [Form 1] Entrance examination Photo Card, Entrance Admission Ticket, Proof of Payment of Entrance Examination Fee [Form 2]	Fill out all fields, except for those that are marked with an asterisk (*), on the Forms designated by the Graduate School. Your photographs must be 4cm high x 3cm wide, showing a front view of your entire face and upper body (without a hat), and have been taken within the last 3 months.
Graduation Certificate or Completion (or Expected Completion) Certificate	An official graduation certificate issued by the president of the university/college (undergraduate or graduate schools) you attended is required. For junior college or vocational school, an official graduation certificate issued by the president of the final school you attended is required. Applicants who have already submitted this document for application qualification screening do not need to submit it again.
Academic Transcript (Undergraduate or Graduate Schools, etc.)	An official transcript issued and sealed by the president of the university/college (undergraduate or graduate schools) you attended is required. For junior college or vocational school, an official transcript issued by the president of the final school you attended is required. Applicants who have already submitted this document for application qualification screening do not need to submit it again.
Certificate of Research Activities [Form 6]	Include a list of your theses, research publications, study reports, conference presentations, etc. (if any) on the form designated by the Graduate School. Applicants who have already submitted this document for application qualification screening do not need to submit it again.
Outline of Research –and–Development Content [Form 7]	Write a detailed description of the theses or research publications that are listed in the “Research Achievement Report,” on the form designated by the Graduate School, and attach a copy of such publications or other

	<p>evidentiary or supporting materials.</p> <p>Applicants who have already submitted this document for application qualification screening do not need to submit it again.</p>
<p>Abstract of Master Thesis</p> <p>[Form 8]</p>	<p>Write a summary of your master thesis within 2,000 characters on the form designated by the Graduate School.</p> <p>Applicants who do not have a master's degree do not need to submit this document.</p>
<p>Research Plan</p> <p>[Form 9]</p>	<p>Write a description of the research project you wish to conduct on the form designated by the Graduate School based upon prior discussion with your possible supervisor.</p>
<p>A letter of Acceptance on Examination and Enrolment</p> <p>[Form 10]</p> <p>(Entrance Examination for Working People only)</p>	<p>Applicants who currently work for a government office or private company are required to submit permission on the form designated by the Graduate School from the head of your institution for taking the entrance exam and studying at the university</p>
	<p>(1) Payment Period:</p> <p>July Application: Thursday, May 11 – Thursday, June 8, 2023</p> <p>* Please allow enough time for the payment to be processed as delays can happen due to the working days and hours of a bank.</p> <p>(2) Payment Place:</p> <p>A teller's window at a banking organization</p> <p>(Do not process your payment at an automatic teller machine (ATM). Make sure to process your payment at a teller's window.)</p> <p>(3) Payment Method:</p> <p>(a) Applicants will be responsible for all bank charges required separately when transferring the payment.</p> <p>(b) Write your name (in katakana), address and telephone number properly in black or blue ink in the column marked with an asterisk (*) on the "payment slip for bank transfer of the examination fee."</p> <p>(c) When receiving "proof of payment of the examination fee" from a teller's window, be sure to check that the bank's stamp is included on it.</p> <p>(4) Things to keep in mind when preparing application forms</p> <p>(a) Do not remit the examination fee over again even if you notice a mistake or typo after attaching the already issued "proof of payment of the examination fee" on the "form to attach proof of payment of the examination fee" and you are forced to prepare a new form. In such case, please peel off the "proof of payment" attached and attach it on a new form.</p> <p>(b) If your examination fee is not paid, your "proof of payment of the</p>

Examination Fee (30,000 yen)	<p>examination fee” is not attached in the appropriate space on the form to attach proof of payment of the examination fee, or the stamp of the payment handling bank is not stamped on the “proof of payment of the examination fee,” your application form will not be accepted.</p> <p>(5) An examination fee already paid will not be refunded for any reason except when:</p> <p>you have remitted the examination fee but did not apply for admission to Nagasaki University (i.e. you did not send application documents or your application was not accepted) or you remitted the examination fee over again by mistake. In such cases, an amount equal to the examination fee will be refunded upon your request. As a general rule, applicants will be responsible for any bank charges for refunding.</p> <p>A request for refund must be made within 14 days of the last day of the application period.</p> <p>* Contact information for inquiries about refunds Money Management Unit, Financial Management Section Finance Department, Nagasaki University Tel: (095) 819-2060</p> <p>(6) Applicants who are students sponsored by the Japanese government (the Ministry of Education, Culture, Sports, Science and Technology) do not need to pay the examination fee.</p>
Return envelope for Sending Exam Admission Card (For residents in Japan only)	Write your name, address and postal code clearly on the return envelope (<i>nagagata</i> #3) and put a prescribed postal stamp (for express mail) on it.
Address Seal	Write your name, address and postal code clearly on the mailing label. Please notify us immediately of a change to your name, address or postal code after submitting the application forms.
Certificate of Eligibility for Status of Residence (Non-Japanese applicants only)	Submit a copy of your residence card or passport. Applicants who have already submitted this document for application qualification screening do not need to submit it again.

Note: Forms 7, 8 and 9 may be prepared using a word processor.

Note: If you cannot obtain your “Graduation Certificate and Completion (or Expected Completion) Certificate” and “Academic Transcript,” due to special circumstances, such as earthquake disaster, be sure to contact and consult with the office for Graduate School of Fisheries and Environmental Sciences, Nagasaki University, at telephone number 095-819-2800. ✕For international students, consult with the intended academic supervisor.

5. Selection of Applicants

(1) Date of Examination

○ **July Application:**

Monday, July 3, Tuesday, July 4 or Wednesday, July 5, 2023

<Day and time designated by examining staff>

(2) Venue of Examination

Nagasaki University Faculty of Fisheries and Faculty of Environmental Science

<Venue designated by examining staff>

(3) Selection Process

Academic achievement tests will be conducted as follows.

○ **General Entrance Examination:**

Written test (for specialized subject and English) or oral examination (interview) (including examination of application documents)

○ **Entrance Examination for Working People and International Students:**

Oral examination (interview) (including examination of application documents)

※ If an applicant hopes to take the examination, please consult with your potential supervisor in advance. The oral examination could be conducted using Online conference system.

(4) Allocation of Scores and Evaluation and Assessment Method of Academic Achievement Test

(Allocation of Scores)

○ **General Entrance Examination:**

Written test: 200 points (100 points for specialized subject and 100 points for English)

Oral examination: 200 points

○ **Entrance Examination for Working People and International Students:**

Oral examination: 200 points

(Evaluation Method)

Evaluation will be made based on the results of the academic achievement test.

(5) Notes on Taking Examination

- Candidates must meet at the designated examination site by the time designated by the Graduate School.
- Make sure to bring with you the examination admission card issued by the Graduate School on the day of the entrance examination.
- If you are late for the start of the examination, you will be allowed to take the examination only if you arrive within 30 minutes of the start of the examination. However, the allotted examination time will not be extended.

6. Announcement of Successful Applicants

- **July Application: 10:00 a.m., Friday, July 28, 2023**

- * The application numbers of successful applicants will be posted on the bulletin board in front of the entrance of the Faculty of Environmental Science and Faculty of Fisheries and a letter of acceptance will be sent to successful applicants.

The University will not respond to any inquiries regarding the results of the examination by telephone or other forms of communication.

7. Enrollment Process

For successful applicants, complete the enrollment process as follows:

(1) Enrollment Process Period (for November and February Applications)

- **Thursday, August 17 to Wednesday, August 23, 2023**

(2) Office Hours: Weekdays 9:00 a.m. to 5:00 p.m. (excluding Saturdays, Sundays and national holidays)

(3) Enrollment Process Venue:

Contact: the office for Graduate School of Fisheries and Environmental Sciences, Nagasaki University

(4) Payment of Fees

Enrollment Fee ¥282,000

<Be sure to remit the amount during the enrollment process period.>

(Note) Enrollment fees shall not be refunded once paid.

[Additional Information]

① Tuition Fee for 2022 (Annually): ¥535,800

(The first semester ¥267,900 / The second semester ¥267,900)

② Payment periods for the tuition fee will be as follows.

The first semester: April

The second semester: October

③ If the tuition fee has been changed, the new tuition fee will apply from the date of revision.

④ There is a provision for exemption or deferment of enrollment and tuition fees available for students.

⑤ Admission and tuition fees are not required for international students recipients of the Japanese government (Monbukagakusho: MEXT) scholarship program.

※Details will be enclosed with the procedural documents sent to successful applicants.

8. Notes

(1) Incomplete application documents will not be accepted.

(2) After the application process, the submitted documents cannot be changed.

(3) No submitted application documents will be returned.

(4) Your admission may be canceled at any time, even after enrollment, if you make a false statement on your submitted application documents.

(5) If any of the submitted application documents are prepared by an overseas school or institution and are written in a language other than Japanese, attach a Japanese translation.

9. Handling of Personal Information

- (1) Information obtained from application documents is used for selecting enrollees. In addition, personal information of successful applicants is used for giving guidance on enrollment procedures; thus, personal information of enrollees will be used for student registration.
- (2) Grades from entrance examinations and other personal information are used for selecting students to be recommended for the first year's scholarships and exemption and postponement of tuition fees.
- (3) Information obtained from application documents and entrance examinations are used in statistical surveys and research related to the selection of enrollees.
- (4) Information obtained from application documents and entrance examinations will not be used for purposes other than the above or provided to third parties except in cases stipulated in Article 9 of the Act on the Protection of Personal Information Held by Independent Administrative Agencies, etc.

10. Application Procedures for Those with Disabilities or Health-Related Needs

Applicants with disabilities or health-related needs will be able to receive special attention on request through a screening process given by the Graduate School (depending on the degree of disability). Those who need special attention in taking the examinations should submit the form 'Request for Applicants with Physical Disability' to the Office for Graduate School prior to application. Please submit the form with a medical certificate by Tuesday, May 2, 2023. Applicants shall not suffer a disadvantage in the screening process by the results of the advance consultation. A personal interview may be arranged with the applicant him/herself, his/her parent, or his/her surrogate.

- The form should list the following information:

- ① Degree of disability
- ② Special measures to be taken for examinations
- ③ Special measures to be taken for course work
- ④ Special measures that were taken during the applicant's school of graduation
- ⑤ Special measures that are taken in daily life
- ⑥ Name, contact address, and phone number of the applicant

☆The Nagasaki University Student Accessibility Office will support students and applicants with disabilities.

11. Security Trade Control

Nagasaki University regulates the export of goods and provision of technology subject to safety concerns, in accordance with the Foreign Exchange and Foreign Trade Act, so that the research and education for non-Japanese students do not impede international peace and safety; accordingly, prospective students should keep in mind that they may be requested to change the contents of research and education. For further inquiries, consult the relevant office.

12. Others

(1) Extended Enrollment System

The Extended Enrollment System allows students for whom learning is difficult due to their employment situation or for other reasons to complete the program by covering the curriculum systematically over a certain period that exceeds the standard study period. The Graduate School allows them to extend the study period for up to six years.

If allowed at the time of enrollment, the total tuition fees, which are usually paid over the term of the regular course (three years), will be equally divided by the number of semesters during the extended study period. The divided tuition fee will be paid during the semester.

Those who meet any of the following criteria and who cannot complete the program within the term of the regular course may apply for the Extended Enrollment System.

[1] those who are working;

[2] those who are involved with housework, child rearing or caring for a sick family member; and

[3] disability person

[4] those who are deemed to have an equivalent reason

If you wish to use the Extended Enrollment System, please contact and ask the office for Graduate School of Fisheries and Environmental Sciences, Nagasaki University, at telephone number 095-819-2800, after discussing this in advance with your intended supervisor.

(2) Financial Aid Programs

There are several financial aid programs by the Japan Student Service Organization (JASSO), prefectural and municipal governments, and private entities. Most of them are scholarship loans and must be repaid after completion of the program.

Financial aid by JASSO includes “Type I Financial Aid” that is provided free of interest and “Type II Financial Aid” that is provided with interest. If you wish to apply for a financial aid program, please contact and consult directly with the Department of Student Support, Student Support Office, at telephone number 095-819-2105.

13. Contact Information for Inquiries about Examination

The office for Graduate School of Fisheries and Environmental Sciences, Nagasaki University
1-14, Bunkyo-machi, Nagasaki 852-8521
Tel: (095) 819-2800
E-mail: sui_daigakuin@ml.nagasaki-u.ac.j

Nagasaki University Graduate School of
Fisheries and Environmental Sciences
Doctoral Program
Department of Environment and Fisheries Resources
List of faculty members and research themes

Fisheries Science Program

Teacher name	Main research themes
Amano Masao ※	Ecology and phylogeny of marine mammals
Arakawa Osamu ※	Distribution, dynamics, and physiologic functions of marine toxins that cause food poisoning
Ishibashi Fumito	Synthesis and biological activity of marine natural product
Inoue Tetsushi	Symbiotic associations between microbes and marine organisms
Osatomi Kiyoshi	Pathologic biochemistry of anti-oxidant enzymes in fishes Structures and functions of endogenous proteases in fishes and shellfishes
Kameda Kazuhiko	Study on the modern change of the supply-demand balance of marine products. Socioeconomic study on management of marine resources
Kawabe Ryo ※	Development of methodology for monitoring behavioral and environmental information with animal-borne data recorders Analysis of behavioral response of marine fish to marine environmental changes
Kiyota Masashi	Studies on the health and sustainability of local fisheries and marine ecosystems based on fish stock assessment, ecosystem modeling and ecological indicators
Kuwano Kazuyoshi	Study of sea desertification, Cryopreservation of seaweeds, Control of life cycle of seaweeds
Sakakura Yoshitaka ※	Larviculture and early life history of marine fishes
Satuito Cyril Glenn Perez ※	Elucidating the settlement mechanism of sessile organisms. Developing new antifouling techniques
Shimizu Kenichi	Research on appropriate operation of nautical instruments, Research for on board working environment or sanitary environment
Suga Koushirou ※	Research on infectious diseases of aquaculture species
Suzuki Toshikazu	Plankton ecology, Marine microbial food webs
Soyano Kiyoshi ※	Physiological and endocrinological studies on fish reproduction Effect of environmental factors on fish reproduction Technology development of artificial seed production and aquaculture
Takatani Tomohiro	Influence of environmental factors on the toxin production of microalgae Identification and characterization of marine toxins
Takeda Shigenobu ※	Study on the control mechanism of marine phytoplankton production Interaction of nutrient and trace metal dynamics with biological productivity in the ocean
Taniyama Shigeto	Research on the food and nutrition sciences of marine products
Nishihara Gregory Naoki ※	Research regarding the restoration and conservation ecology of marine forests and blue carbon
Matsushita Yoshiki ※	Research on fishing technologies for sustainable use of fisheries resources
Yamaguchi Atsuko ※	Studies on the taxonomy, life history, and migration of marine fishes, and ecosystem structure and function of the East China Sea
Yamaguchi Kenichi	Studies on protein synthesis systems and functional macromolecules in aquatic/marine organisms
Yamamoto Naotoshi	Study on the Japanese distribution and transaction system on marine products
Wada Minoru	Ecological studies on aquatic microbes
Ichikawa Hisashi	Muscle Biochemistry Marine Food Science
Kawabata Yuuki ※	Anti-predator behaviors of animals; Predator-prey behavioral interactions in marine organisms
Kim Hee-Jin	Physiological ecology of zooplankton Anthropogenic pollutants in the marine environment
Koyama Takashi	Genetics and breeding on aquatic species
Kondo Yoshiko ※	Biogeochemical cycles of trace metals in the ocean
Takikawa Tetsutaro	Physical oceanography, Fluid dynamics of the ocean and atmosphere, Physical processes in the marine ecosystem
Takeuchi Seiji	Population and community dynamics in coastal marine benthos

Takegaki Takeshi	Evolutionary and behavioral ecology of fishes and cephalopods
Takehita Satoshi	Functions of bioactive substances derived from marine biological resources and their applications
Hamada Yuki	Characterization of seafood allergens, Seafood processing and safety.
Hirasaka Katsuya	Research on the functional nutrition derived from marine products
Hirose Miyuki	Fisheries Acoustics. Acoustic Observation of the distribution and behavior of fishes or zooplankton.
Yagi Mitsuharu	Studies on ship navigation and seamanship, Microplastic studies
Yagishita Naoki	Taxonomy, phylogeny, evolution, and molecular ecology of fishes
Yamada Akinori	Molecular biological, ecological and evolutionary studies of marine organisms and symbiotic microbes based on genetic and genomic analysis
Yoshida Asami	Studies on the structures and functions of endogenous proteases in fish and shellfish, and their applications in food science
Wang Yao	Food science and histological research on aquatic products
Ueno Mikinori	Studies on biological activities of natural products from marine organisms Establishments of fish cell culture systems
Nakamura Itsumi	Behavioural ecology and physiology of fishes
Murata Ryosuke	Environmental effects on the reproduction of marine organisms
Kurihara Takeo	Researches on the population dynamics of aquatic organisms (especially mollusks)
Kurota Hiroyuki	Modeling and quantitative methods in fish dynamics, fisheries stock assessment and management
Suzuki Go	Conservation and restoration of the coral reefs
Takahashi Motomitsu	Population dynamics of small pelagic fishes in response to marine environments
Nanami Atsushi	Ecology, biodiversity, conservation and fisheries management of coral reef fishes
Hasegawa Toru	Relationship between plankton community and their environment in the East China Sea

※ Marks are full-time faculty members for the doctoral course (5-year Doctoral Program).

Environmental Science Program

Teacher name	Main research themes
Asakura Hiroshi	Development of recycling technology, analysis of microplastics, development of technology for acceleration of stabilization of landfill sites
Iguchi Keiichiro	Conservation of freshwater biodiversity
Umakoshi Kodo	Seismic activity in Unzen Volcano Utilization of geothermal resources
Endo Aiko	Water-energy-food nexus, coastal and ocean policy, interdisciplinary studies
Okada Jiro	Behavioral and sensory mechanisms in invertebrates Effects of anthropogenic environmental chemicals on invertebrate behavior
Kawamoto Kazuaki ※	Aerosol-cloud-precipitation interactions, cloud analysis using satellite data
Katayama Kensuke	National, regional and urban planning under the depopulation, Regional cooperation, Analysis of transformation of European spatial planning
Goto Seiko	Landscape Design, History of Japanese Gardens outside of Japan, Healing Effects of Viewing Japanese Gardens
Takao Yuji ※	Analytical chemistry of harmful organic compounds with trace level in the environment
Nagae Masaki ※	Effects of human medicines on fish behavior and reproductive functions Toxicological evaluation of transboundary air pollution in East Asia
Nakagawa Kei	Fate of environmentally hazardous substances in the subsurface environment Remediation of contaminated soil and groundwater Hydrogeochemistry
Nakayama Hideki	Elucidation and application of biological functions that contribute to the upcycling of environmental pollutants

Nishiyama Masaya	Microorganisms and minerals in soil and rhizosphere
Muto Tetsuji ※	Morphodynamics and genetic stratigraphy of alluvial-shelf sedimentary systems
Yamaguchi Noriyuki	Movement ecology of migratory birds
Watanabe Takashi	Identification of characteristics of open spaces and landscape Evaluation of ecological functions of open spaces and landscape Identification of present situation of local municipality managements and civic activities about conservation and restoration of open spaces and landscape
Iima Masafumi	Study of conservation of endangered algal species
Ota Masahiko	Forest policy and economics, natural resource management, rural livelihoods, community development, and Education for Sustainable Development (ESD) both in developing and developed countries
Kagabu Makoto	Scientific assessment of the interaction between the hydrological cycle and human activities by adopting groundwater age dating and isotope hydrology methods
Kuroda Satoru	Environmental Sociology, Regional Sociology, Community Collaborative Resource Management, Consensus Building Theory, Support for earthquake reconstruction activities, Sustainability of environmental conservation
Shigetomi Yosuke	Studies on consumption-based environmental pressures and quantitative sustainability assessment using the environmentally extended input-output analysis
Shirakawa Seiji	Design of Organocatalysts and Its Application to Environmentally Benign Organic Synthesis
Seki yoko	environmental philosophy, environmental ethics, ethics for co-existence
Suk Sunhee	Researches on the micro and macro impact of market-based environmental policies on the economy and environment
Takeshita Takayuki	Energy system modeling and analysis, Assessment of clean energy technologies
Tomozawa Yuuki	Historical studies on Japanese grassroots anti-pollution movements and its philosophy
Nakayama Tomoki	Laboratory and observational studies of behavior and properties of gases and aerosol particles in the atmosphere
Hattori Mitsuru	Effects of species interactions on adaptation of organisms
Hamasaki Hironori	watershed governance, water resources and environment governance, study on policy instruments and stakeholder coordination for better water governance
Fukami Satoshi	Sustainable tourism, Biocultural diversity Island tourism, Ecotourism Geopark, UNESCO world heritage, Geographical and environmental education
Honjyou Moe	Animal Welfare Law, Comparative studies of animal law between the EU and the U.S.
Yamaguchi Masahiro	Effects of air pollution and global change on plants
Yamamoto Yuki	Evaluation of the impact of environmental degradation on social welfare
Yoshida Mamoru	Disaster risk management, Disaster risk governance, urban and community planning for disaster risk reduction
Wadachi Yoko※	The EU environmental governance as a case of the environmental politics study
Kubo Takashi	Evaluation of environmental risks caused by toxic chemicals
Takasu Hiroyuki	Evaluation of impact of terrestrial matter inflow on coastal environment

※Marks are full-time faculty members for the doctoral course (5-year Doctoral Program).
